

LUCERNE

Take the top 20 cm of the plant.

Take at least **40 tops**, randomly across the sampling area to obtain a representative sample.

If plant height is below 30 cm, please send **60 whole plants**, without the roots.

If you require a Sap 2 or 3 analysis please collect **twice** as many tops/plants.

If you require a Sap 4 comprehensive analysis please collect **three times** as many tops/plants.

Monitoring program

Begin sampling at budding monitor fortnightly to monthly to mid-harvest.

Additional Notes:

- To ensure that the laboratory is able to perform the entire test suite required and that the optimal levels supplied on the laboratory report are relevant, please ensure that the above instructions are followed.
- Place samples into a plastic sample bag, not in paper, as paper will dry out the sample and may not allow for enough sap to be extracted for the analysis requested.

LUCERNE

New Vs Old Leaf testing is not available for this crop.
