

# TURF

For established turf, a sample of about **600g** of the mixed grass clippings after mowing of the area of interest is a sufficient sample. Please do not send clippings of dried turf or grass.

For young turf, or if not mowing, sample the top of the grass, 5 - 10cm. About **400 - 600g** are required. Do not sample dried grass.

If you require a Sap 4 comprehensive analysis please collect **twice** as many tops.

## Monitoring program

Test as required. Or monthly during growing season.

# TURF

**New Vs Old Leaf testing is not available for this crop.**
